Scope: *The Avery Index to Architectural Periodicals* offers a comprehensive listing of journal articles published worldwide on architecture and design, archaeology, city planning, interior design, landscape architecture, and historic preservation. Coverage is from the 1930s (with selective coverage dating back to the 1740s) to the present. The *Avery Index to Architectural Periodicals* is updated weekly.

Avery Index also contains references to more than thirteen thousand obituary citations thereby providing architects, architectural historians, and researchers with an excellent source of biographical and professional information about architects. Among the obituaries indexed are those from four crucial American periodicals since their inception: *American Architect* (1876), *Architectural Forum* (1892), *Architectural Record* (1891), and *Progressive Architecture* (1920). The *Journal of the Royal Institute of British Architects* is indexed as far back as 1865, providing an extensive record of English architects.
