

Dear Reader,

We are pleased to inform you that **LeapSpace: The Research-Grade AI Workspace** will be accessible on a trial basis until 03 July 2026.

**Access URL:** <https://www.sciencedirect.com/leapspace/>

You can access **LeapSpace** on campus or via the EMU Libray VPN. You need to use your Elsevier password and login. In case the email address entered does not have an Elsevier account, you will be prompted to register.

LeapSpace is an AI-powered workspace based on a vast collection of peer-reviewed full-text articles and books from Elsevier and other leading publishers. Unlike many AI literature search tools, it analyses full texts, not just metadata, and is overseen by an independent advisory board to ensure transparency.

LeapSpace Support:

- [Accessing LeapSpace](#)
- [LeapSpace Reference Guide](#)
- [LeapSpace Use Cases and Prompts Guide](#)
- [Can I save or revisit my searches?](#)
- [How does LeapSpace select and cite references?](#)
- [How do I enter and refine a query?](#)
- [What is LeapSpace and what can I use it for?](#)
- [What content does LeapSpace use?](#)
- [How current is the content in LeapSpace?](#)
- [How do Trust Cards work?](#)
- [What are the main LeapSpace features?](#)

**Note:** Please be informed that you can access Online Databases through the Library Web Site: <http://library.emu.edu.tr/>

For more information please contact: 2741, 1417

Kind regards,

EMU Özay Oral Library
